ULTRA® MAX II 695 STANDARD - ULTRA® MAX II 795 STANDARD - ULTRA® MAX II 1095 STANDARD

Ultra[®] Max II Standard

Electric Paint Sprayers for Larger Residential and Commercial Projects

This is for **YOU** when you're looking for technology that gets the job done. Technology proven to do the trick, time and time again.

The Ultra[®] Max II family is Graco's most popular electric airless paint sprayer for professionals. With over 25 years experience of proven quality and unmatched on-the-job productivity, it has become the industry standard in electric paint sprayers. A standard you can trust to get the job done.

The **Standard Series** are suited for professionals that don't need extras, but are looking for everyday reliability to get the job done fast and easy.

Choose the Ultra[®] Max II ...

...if you're looking for the optimal unit for larger residential and commercial painting jobs for inside as well as outside!

Where the Ultra[®] Max II 695 is well equipped for large residential new construction and renovation, the Ultra[®] Max II 795 is a step up from that and delivers the performance and output you need for larger commercial sites as well. On top of that, the Ultra[®] Max II 1095 has the versatility and performance to handle thicker materials such as anti-corrosion coatings and fire-retardants.

... and go for the Standard Series for everyday reliability!

Have a look at the features that have turned our ULTRA[®] MAX II range into the industry standard.

Discover this standard, like so many other professionals have already. This is where you stand out.

Advantage Drive[™]

The drive is the critical link between the engine and the pump.

Graco doesn't leave the manufacturing of our Advantage Drive System to others; we design and manufacture them at our world-class manufacturing facility in the United States.

- Hardened steel gears run extremely quietly
- The most durable, longest lasting drive in the industry

SMARTCONTROL[™]

SmartControl[™] 3.0 with Pressure Gauge

Graco's advanced SmartControl 3.0 offers precision pressure control that delivers a consistent spray fan without pressure fluctuations.

- Spray thicker coatings and run longer hoses
- ProGuard[™] Sprayer Protection System guards against bad or extreme job site power conditions

Endurance[™] Pump

Graco's proven and reliable piston pump technology with LongLife-V packings.

QuickAccess[™] intake valve to easily clean or clear debris.

Materials & Applications

The ULTRA[®] MAX II STANDARD is the ideal unit for medium to large painting jobs, inside as well as outside! Your most reliable buddy for renovations, new construction, commercial and residential buildings, exterior facades, new housing projects, etc.

It handles most common tip sizes with ease!

The ULTRA[®] MAX II STANDARD sprays perfectly acrylics, primers, emulsions, waterborne as well as solvent paints.

for large commercial & light plaster

JetRoller™

The new JetRoller system minimizes application time when combining rolling and spraying into one operation. The Inline™ valve provides even paint flow and eliminates dipping the roller in paint. Uses commonly available 18 or 25 cm roller covers.

Benefits:

- Reduces overspray
- Eliminates reaching
- Eliminates climbing and continually reaching up and down
- Complete large jobs in half the time of traditional methods

Kit includes a lightweight detachable roller frame, 50 cm extension, CleanShot™ Shut-Off™ valve, spray tip and guard.

TiltBack™ Cart Design

Sprayer kick stand allows convenient, one person bucket change and facilitates cleaning and maintenance of your pump.

www.graco.com

Easy Out™ Pump Filter

The Easy Out pump filter is designed to filter from the inside out so filters won't get stuck or collapse when filled with dirt or debris.

- ▶ Large 19.5 square inch filtering area reduces tip clogs and ensures a quality finish
- ▶ Vertical filter removes with the cap for less mess
