

POWERFUL AND COMPACT FLOOR SAWS FOR SERVICE WORK

- Particularly compact construction
- The hand cranked travel enables a uniform cutting rate, guaranteeing a straight saw cut, thereby extending the life of the saw blade – lower cutting costs
- The FS 20 is also available with electric power travel, ideally suited to heavy cutting in concrete or asphalt.
- For longer service life – the vertically positioned engine guarantees permanent oil supply in every cutting situation
- Lowering and raising the saw blade is done smoothly, therefore preventing damage to the saw blade
- Clear and ergonomic arrangement of the instruments
- Saw hood front can be raised for intersections
- The rear running wheel sits outside of the saw cut – this makes recutting of cut joints easy
- The LISSMAC swivel arm principle saves time and money – long times for converting from left to right cut are eliminated by the 180 degree swivel saw arm
- Large water and fuel tanks reduce down-time to a minimum.
- Parking brake, water saving flange spraying and saw cutting depth indicator are standard equipment

FS 20 D

[1] FS 20 B

[2] Blade guard incl. vacuum shoe

Blade guard front can be raised
