# MIX WHAT YOU NEED, WHEN YOU NEED IT

## TRUMIX XT MIXES MATERIAL ON DEMAND, GIVING YOU THE FLEXIBILITY TO MIX MATERIAL AS YOU NEED IT.

### REDUCE WASTED MATERIAL

TruMix XT minimizes wasted material by allowing you to mix only what you need. This is great for situations where a partial kit is desired, such as coating a small area or working with a fast-curing material.

### BATCH MODE — NO MEASURING REQUIRED

The BATCH feature allows you to choose exactly how much material is mixed every time — from 0.75 to 95 litres. No measuring is required — just specify the amount and exactly that much mixed material will be dispensed!

### MAXIMIZE MATERIAL WORKING TIME

The challenge of applying fast-curing materials just got easier. With TruMix XT, material is dispensed instantly after mixing, giving you every possible second of working time.

### INCREASE CREW PRODUCTIVITY

Mix and apply faster with fewer people at the mix station.
