

ROBUST GRINDING MACHINE FOR DRY AND WET USE

- 3-disc grinding machine
- For dry and wet grinding
- Polishing of concrete, marble and terrazzo surfaces
- Fast and thorough removal of coatings, adhesives, paint and fillers
- Fast exposure of grit
- Integrated water tank
- Folding transport wheel
- High-quality, robust and compact steel construction
- Adjustable speed
- Additional weights for increased grinding pressure
- Grinding close to the wall

TECHNICAL DATA	BSM 525 E
Working width	525 mm
Max. output power	7,5 kW; 400 V; 50Hz
Speed	100-700 1/min.
Dimensions (L/W/H)	1020/590/1100 mm
Weight	317 kg

FLOOR GRINDING MACHINE

BSM 525 E incl. 9 x diamond grinding segment SKDW 30 - grain 6

1200885

ACCESSORIES

NR.

[1] Support plate for 3 tool segments

1095594

[2] Mounting plate for 3 grinding or polishing pads

1095595

[3] Mounting plate for 1 polishing pad ø230mm

1095596

[4] Support plate for 3 rollers

1095597

TOOL RECOMMENDATION

Grinding segment diamond → SKDW

Grinding segment PKD → PKD-SKPW

Polishing pad → SPW 30

Metal bond diamond tools in various bonds and grit sizes, PCD tools for coarse stock removal and diamond polishing tools are used.
